

Network Cable Taster

QP - C251YL1

Networking Cable Tester Tool

Description

QP-C251YL1 is a small hand-held cable tester, which enables network professionals to quickly and easily verify the integrity of ethernet twisted pair cables.

The **QP-C251YL1** will test twisted pair cables for open pairs, shorted pairs, reversed pairs, crossed pairs and split pairs. Just push the TEST BUTTON, and the tester will automatically scan for any existing faults in your cable.

The remote terminal provides testing of installed cables.

Features

- Can test the entire Network System or individual patch cord.
- Easy to verify cable continuously, open, short and miswire.
- Can test either Twist Cable or Telephone cable.
- Can test RJ45, RJ11 and RJ12.
